

A black and white portrait of a young man with dark, wavy hair, looking directly at the camera with a slight smile. He is wearing a light-colored, possibly white, t-shirt. The background is a blurred natural setting with trees and foliage.

My name is Vincent and I work as a front-end developer. Currently I live in Stockholm, Sweden and work at the digital agency Daytona Communications.

Design and technology has always been my main interests and with both these passions web designer is the best job for me! After studying system development and computer science I've been freelancing and worked at different web agencies. Right now I'm working at one of Sweden's best digital agencies where I work with clients such as Coop and Systembolaget.

When I'm not working with clients I like to "kick back" and do some side projects to keep the creativity and my code-brain going.
